Verification Statement

El Sewedy Cement Company (ESCC)

Verification Statement Type: GHG Emissions Verification

Claim Reference: GHG Emissions Assertion for Jan 1, 2023 – Dec 31, 2023 (Base Year)

Validation/Verification Body

Type: Third-Party

Name: EPU-VVB

Address: 16 Tadreeb El Motadarebeen St, Cairo, Egypt

Objectives and Scope of the Verification

- **Objectives:** The objective of this verification was to assess and confirm the accuracy, completeness, and material correctness of the GHG emissions assertion made by **ESCC** for the period from **January 1- 2023 to December 31, 2023**.
- **Scope:** The scope of the verification included direct and indirect GHG emissions from the production line, facilities located at Kilo 106, Old Katameya–Ain Sokhna Road, Building Materials Industries Zone, Suez. The verification process covered emissions from all relevant sources including processes, combustion, mobile equipment (**Scope 1**) and purchased electricity (**Scope 2**).

Supporting Data

Data and information supporting the GHG emissions assertion were historical in nature, representing actual measurements and records from the operational activities of **ESCC** during the specified period.

Reference to Validation/Verification Programme

This verification was conducted in accordance with the ISO 14064-3 standard.

Decision on the Claim

Type of opinion: **Un-modified opinion** has been issued for GHG emissions assertion made by **ESCC** for the reporting period **January 1- 2023 to December 31, 2023**, is confirmed to be accurate, complete, and materially correct. The verification process has fulfilled all program related requirements, including **10% materiality threshold and Limited level of assurance**.

Findings

No unresolved findings were identified during the verification process. All discrepancies and issues noted during the verification were resolved prior to the issuance of this statement.

This verification statement is issued by EPU-VVB as a formal confirmation of the accuracy and reliability of the GHG emissions assertion made by **ESCC** for the reporting period **from January 1- 2023 to 31 December 2023**. The statement is based on a thorough review and analysis in accordance with international standards and protocols.
