Verification Statement

Al-Nahda Cement Plant

Verification Statement Type: GHG Emissions Verification

Claim Reference: GHG Emissions Assertion for January 1, 2023 – December 31, 2023

1. Validation/Verification Body

Type: Third-Party

Name: EOS-VVB

Address: 16 Tadreeb El Motadarebeen, Cairo, Egypt

2. Objectives and Scope of Verification

Objectives: Assess and confirm the accuracy, completeness, and material correctness of the GHG emissions assertion for the reporting period.

Scope: Includes direct and indirect GHG emissions from the production line facilities at Kilo 22 (Qena - Safaga) Road, Qena, Egypt. The verification covers emissions from all relevant sources, including processes, combustion, mobile equipment, and electricity.

3. Supporting Data

Data represents actual measurements and records from Al-Nahda Cement Plant's operations during the specified period.

4. Reference to Verification Programme

Conducted in accordance with ISO 14064 and the GHG Protocol guidelines.

5. Decision on the Claim

The GHG emissions assertion for 1 Jan. 2023 – 31 Dec. 2023, is confirmed as accurate, complete, and materially correct. All program requirements, including materiality and assurance level, were met.

6. Findings

No unresolved findings. All noted issues were resolved before issuance.

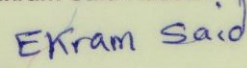

This verification statement is issued by [Name of Verification Body] as a formal confirmation of the accuracy and reliability of the GHG emissions assertion made by Al-Nahda Cement Plant for the year 2023. The statement is based on a thorough review and analysis in accordance with international standards and protocols.
