NOTIFICATION

Addendum

The following communication, dated 2 March 2015, is being circulated at the request of the delegation of Egypt.

This addendum concerns the modification of ES 647/2007 "LPG Equipment and Accessories-Procedure for Checking LPG Cylinders Before, During and After Filling", that is already mandated by Ministerial Decree 95/2008 (6 pages, in Arabic), by ES 647/2014 (38 pages, in Arabic).

The producers and importers must comply with the Egyptian standard ES 647/2014.

ES 647/2014 specifies the procedures to be adopted when checking transportable refillable LPG cylinders before, during and after filling. This Standard applies to transportable refillable LPG cylinders of water capacity from 0,5 l up to and including 150 l. Additional conditions for the examination procedures before, during and after packing taking place in the Arab Republic of Egypt.

Entry into force is six months from the date of adoption that is 16 April 2014.

Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.
